

Local Government Has Its Own KiwiSaver SuperEasy KiwiSaver Superannuation Scheme

KiwiSaver: Overview from 1 July 2011

- SuperEasy KiwiSaver is registered under the KiwiSaver Amendment Act 2011 as a restricted scheme. Only those that work within the Local Government sector in New Zealand and their immediate family may join.
- KiwiSaver offers workplace super that is open to any resident New Zealander under age 65. Contributions for KiwiSaver are collected by the IRD, usually through PAYE deductions.
- \$1,000 kick-start from government for all new members, plus a matching contribution from your employer of 2% of salary, which becomes 3% of salary from 1 April 2013, plus a member tax credit of up to \$521 each year.
- Compulsory for most new employees, but can opt out after two to eight weeks.
- Fully portable. Each KiwiSaver account is linked to your IRD number, so only one KiwiSaver account per person. Because each KiwiSaver account is linked to an IRD number it cannot be lost or forgotten.
- Investments managed by a range of private companies. On joining KiwiSaver, you will be asked to choose a KiwiSaver provider, but if you do not, you will be enrolled with your employer's preferred provider (if it has one), else one will be chosen for you by the IRD. Note: someone else selecting a KiwiSaver provider for you because you chose not to do this yourself does not by statute constitute receiving financial advice.
- It is your decision, no one else's, to decide which KiwiSaver scheme to join. Even if your employer has selected a preferred provider you are still free to join any KiwiSaver scheme you wish.
- Any KiwiSaver member can transfer to a different KiwiSaver superannuation scheme whenever they want to and as often as they want. Thus as long as you are eligible to join our KiwiSaver scheme you can transfer your funds from another KiwiSaver provider to Civic's SuperEasy KiwiSaver Superannuation Scheme at any time.
- Savings locked in until age 65 or five years, whichever is the later, except for severe financial hardship, serious illness, emigration, death and first home purchase. Withdrawals after the locked-in period are fully flexible.
- On certain conditions, a gift of up to \$10,000 from the government per couple towards the purchase of your first home.
- Contribution holidays from three months to five years available after one year. Contributions do not have to be paid if you are not working.
- Civic's SuperEasy KiwiSaver Superannuation Scheme is registered as a "PIE" (Portfolio Investment Entity). This allows a member to select a rate of tax of 28% or lower to be charged on their KiwiSaver investment earnings.
- Our KiwiSaver scheme has password protected account balances available on www.supereasy.co.nz.

Compulsory Contributions from your Employer

If you pay KiwiSaver contributions through your workplace, your employer must contribute a minimum of 2% of your salary or wages and from 1 April 2013 your employer must contribute a minimum of 3% of your salary or wages.

Mix and Match

As soon as your own personal contributions are at a level of \$1042 per annum and you are over 18 you qualify for the full Member Tax Credit (MTC) of \$521 each year. The Government will pay into your KiwiSaver a MTC at a rate of \$0.50 cents for each dollar you pay in up to a maximum of \$521. Any savings on top of that can be directed to our non-KiwiSaver scheme. For example you could pay 2% into our KiwiSaver scheme (and pick up the employer's 2%) and then pay 3% to our non-KiwiSaver scheme all in the one package. **From 1 April 2013** you could adjust this by increasing your KiwiSaver payment to 3% (and pick up the employer's 3%) and then reduce your non-KiwiSaver contribution to 2%. All within the one package and be able to check both account balances on www.supereasy.co.nz.

Civic Recommends Its Scheme To Local Government Staff

SuperEasy KiwiSaver Superannuation Scheme has been designed for the staff of local government. The advantages to you of choosing it are:

- Civic exists purely for the benefit of local government, not overseas shareholders looking after their own interests. Civic is dedicated to providing local government (and its staff) with the best financial solutions.
- Our schemes' Automatic Fund solves the inherent problem that exists in all other investment and superannuation funds, which is when to switch from growth (higher risk) assets to income (lower risk) assets.
- The fund-management charge of 0.5% pa and an administration fee of \$4.50 per month are the ONLY charges made by Civic: we have no set-up charge, no switching fee and unlike many other KiwiSaver schemes will not pay commission or join-up fees to so-called 'independent advisers'. There can be some other fund management charges such as trusteeship and audit fees, which if applicable would typically average less than 0.1% pa.
- The Automatic Fund is designed to last for life, not just until a member changes jobs or retires. In particular, the Automatic Fund will be there to manage in retirement a member's retirement savings. Note that when one of our members is in retirement they can still expect to benefit from our low, wholesale charges.
- As both our KiwiSaver and non-KiwiSaver schemes are "PIE-compliant", both allow tax flow-through to members. This means that depending on the level of a member's taxable income they can have their earnings in the scheme taxed at 28%, 17.5% or 10.5%. Less tax on the earnings leaves more in the member's account balance. NB not all superannuation schemes are PIE-compliant.
- Unlike many KiwiSaver providers, Civic is not tied or linked to any investment manager or in-house investment team.
- The scheme trustees apply independent governance overseeing the management and propriety of the scheme.
- You can mix and match contributions with our KiwiSaver scheme and our non-KiwiSaver scheme all within the one package for extra flexibility with your retirement savings.
- Once you join, irrespective of your circumstance you can remain a member for as long as you choose of one or both schemes and continue to benefit from our low, wholesale charges.

It's Easy to Join – Download the Forms from www.supereasy.co.nz

Complete our Application Form (SE2011-01) and for employees a KS 2 Form (from our website or the IRD Employee Information Pack) and submit them to your Human Resources Department who will forward the information to us.

For an Investment Statement see www.supereasy.co.nz. Other useful websites are www.kiwisaver.govt.nz and from the Office of the Retirement Commissioner: www.sorted.org.nz. The latter offers all sorts of advice on how to manage your finances, with special sections for kids, students and over 60's.
